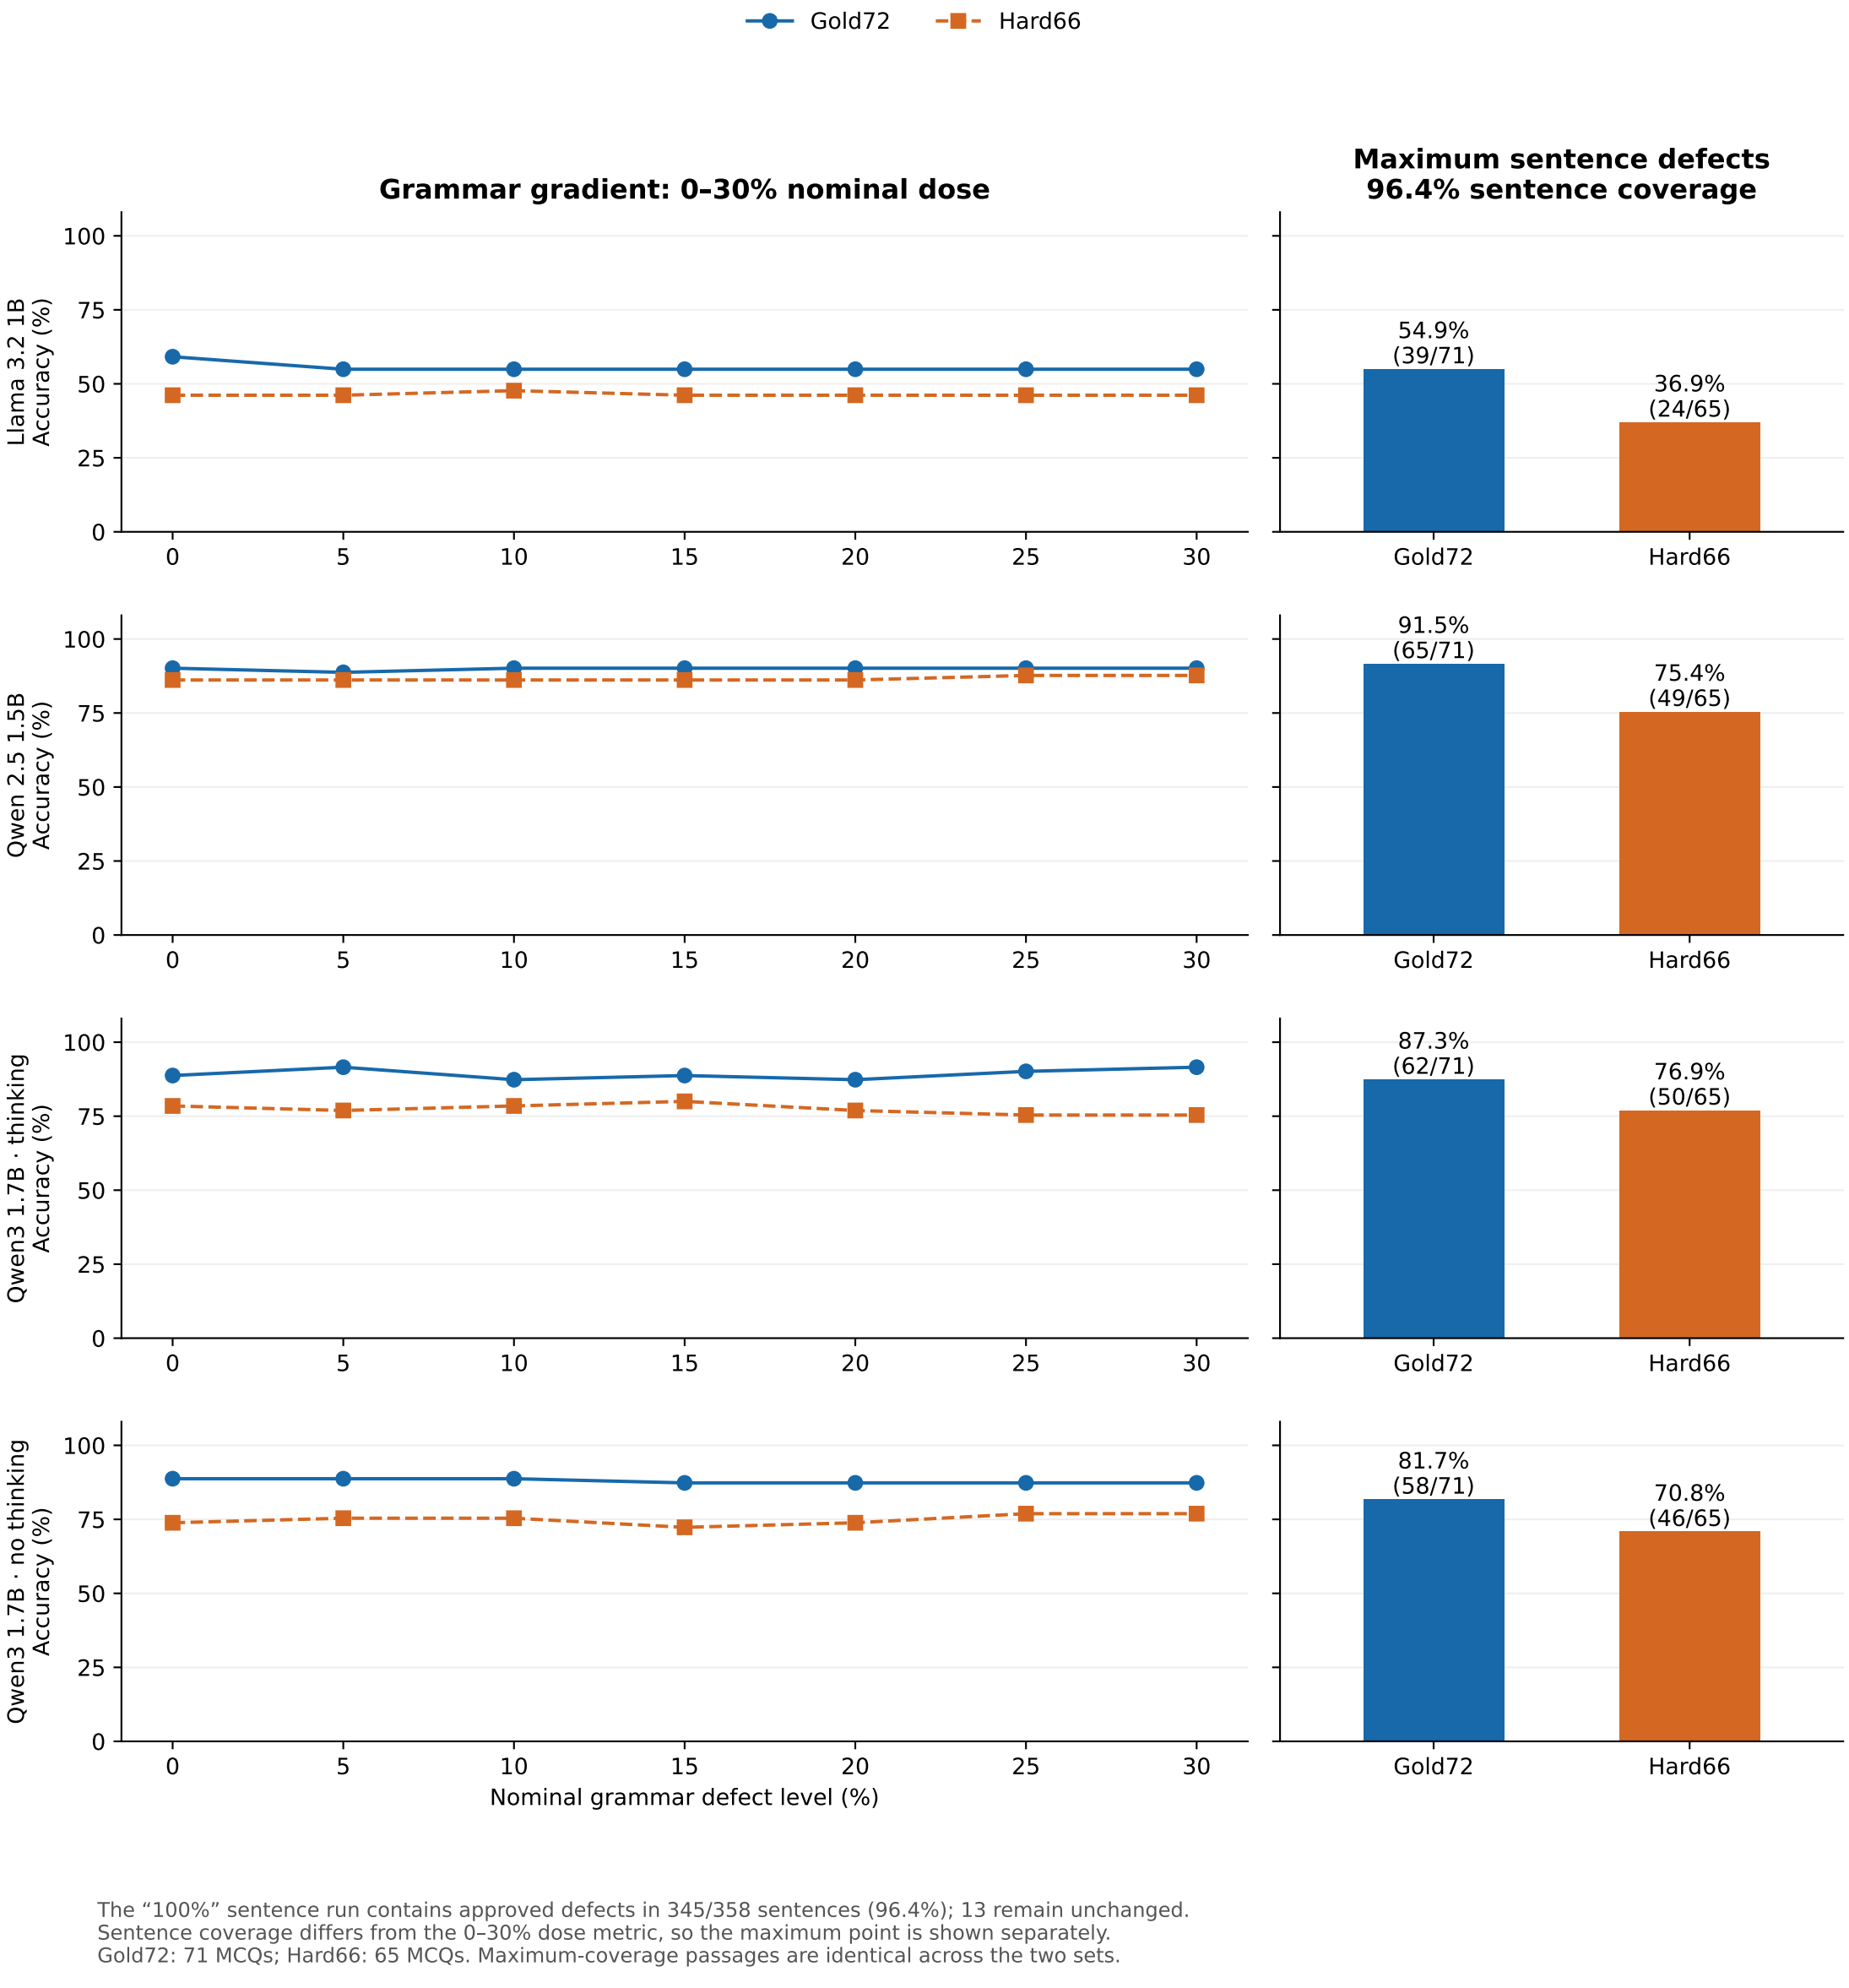
Gold72 vs Hard66 · grammar including maximum coverage



The “100%” sentence run contains approved defects in 345/358 sentences (96.4%); 13 remain unchanged.
Sentence coverage differs from the 0–30% dose metric, so the maximum point is shown separately.
Gold72: 71 MCQs; Hard66: 65 MCQs. Maximum-coverage passages are identical across the two sets.
